International Day of Peace is 9/21/2021

In 2021, as we heal from the COVID-19 pandemic, we are inspired to think creatively and collectively about how to help everyone recover better, how to build resilience, and how to transform our world into one that is more equal, more just, equitable, inclusive, sustainable, and healthier.

The pandemic has been accompanied by a surge in stigma, discrimination, and hatred, which only cost more lives instead of saving them: the virus attacks all without caring about where we are from or what we believe in. Confronting this common enemy of humankind, we must be reminded that we are not each other's enemy. To be able to recover from the devastation of the pandemic, we must make peace with one another.

And we must make peace with nature. Despite the travel restrictions and economic shutdowns, climate change is not on pause. What we need is a green and sustainable global economy that produces jobs, reduces emissions, and builds resilience to climate impacts.

The 2021 theme for the International Day of Peace is "Recovering better for an equitable and sustainable world". We invite you to join the efforts of the United Nations family as we focus on recovering better for a more equitable and peaceful world. Celebrate peace by standing up against acts of hate online and offline, and by spreading compassion, kindness, and hope in the face of the pandemic, and as we recover.

The International Day of Peace was established in 1981 by the United Nations General Assembly. Two decades later, in 2001, the General Assembly unanimously voted to designate the Day as a period of non-violence and cease-fire.
